

## MEXP-IO

Additional Inputs and/or Outputs  
Expansion module

### DESCRIPTION

- ▶ Insulator expansion module that allows the addition of input and / or output cards

### APPLICATION

- ▶ Enables simple and efficient extension of the BACplus-IP and BACplus-MSTP controller architecture to its logical tree.

### TECHNICAL SPECIFICATIONS

**Max. wire size:**  
14 AWG and 16 AWG (Side) Twisted Pair Cable

**Power supply:**  
24 VAC/VDC;  $\pm 15\%$ ; 50/60Hz

**Current consumption:**  
Max: 48 Va

**Protection type :**  
Removable fuse 2 Amp

**Dimensions :**  
66 mm x 88 mm / 2,59" x 3,47"

**Mounting :**  
Quick mounting on DIN rail

**Expansion modules compatibility:**  
MEXP-8AI, MEXP-4AO, MEXP-4BO, MEXP-4BOR

**Transport Temperature :**  
-30°C to 60 °C / -22°F to 140°F

**Operation Temperature :**  
0°C to 45°C / 32°F to 113°F

**Relative Humidity of opération :**  
10 to 90 % R.H.(without condensation)

**Weight :**  
96 g / 0.212 lb

**Warranty :**  
1 year
