

OPENSTAT TOUCH

POWERED BY 

Luxury feel. Practical performance.
Designed for every building, not just flagship towers.

OPENSTAT Touch brings modern interaction, advanced sensing, and open automation into a single, elegant wall controller.

No complexity. No lock-in. No compromises.

Advanced Sensing, Built In

- Radar motion detection (reliable where PIR fails)
- True NDIR CO₂ for accurate IAQ & ventilation control

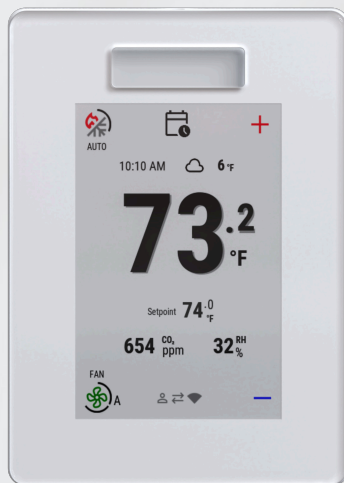

Modern Control Experience

- Intuitive and modern UI
- Touchscreen, browser and NFC configuration

Open by Design

- BTL listed
- Seamless integration with any BAS
- No proprietary gateways

Why It Matters

Most buildings don't need enterprise bloat, they need smart control that works.

OPENSTAT Touch delivers enterprise-grade capability, right-sized for:

- Offices
- Retail
- Schools
- Clinics
- Hospitality
- Light commercial spaces
